Coding Expertise		
Web page contains code to create a list, background picture, picture border, custom hyperlink, style class, animated image, or table.		

Checklists are completed by the web builder and by a peer.

On completion of the project, students complete a thorough checklist of their web page.

Checklists build organizational skills.

Reflection

Reflect on your web page and what you have learned about HTML.

1. What was the most difficult part of learning HTML and CSS?
2. What was the easiest part of learning HTML and CSS?
3. Why do you like making a web page using HTML and CSS?
Students reflect on their learning.
4. If you could make another web page, what topic would you choose?
5. List reasons a teacher would want to have a web page.
6. List reasons a business person would want to have a web page.

*Student workbooks are provided in digital format for the paperless classroom.
Workbooks can also be printed.*
